Marc Max Pollock

Marc Max Pollock's life story is an extraordinary example of overcoming adversity. Having grown up experiencing poverty, abuse and homelessness, Marc made it his mission to harness the power of the universe to change his reality from a life of hopelessness to a life of abundance. On his journey, he used the insight he gained to heal the wounds of his traumatic childhood and create wealth, health, and happiness. Marc's calling is to share his transformational secrets to help you heal and live your best, abundant life.

In his book, *Curious Avatar: Exploring Reality, Spiritual Energy, Personal Transformation, and the Meaning of Life*, Marc shares his secrets to help you heal and live your best life. Marc's calling to write *Curious Avatar* arose during the pandemic. As the world struggled with the fear and disruption of those dark times, Marc realized that his non-religious perspectives on creation and his hard-earned knowledge about the link between energy and matter could help others and further the spiritual development of humanity.

After graduating from Baylor University (BBA) and the University of Texas at Dallas (Master of Arts), Marc pursued a career in corporate finance and marketing. Along the way, he met his accomplished wife, Brooke, and together they grew a successful marketing agency while raising four amazing children.

As well as being an entrepreneur and investor, Marc is an incessant spiritual adventurer, author, teacher, energy practitioner, and Reiki Master. When not writing or teaching, he loves traveling the world with Brooke and their children, playing music, painting, and communing with nature.

SUGGESTED DISCUSSION QUESTIONS

- ∞ You begin your book by stating that there is no other way to explain your improbable arc through this lifetime except through magic. Not in a mythological way, but a wide-eyed, rational, intentional ability to create something real and tangible out of thin air. What is that "real magic", how did it impact your life, and is it available to everyone?
- ∞ You came from a troubled background. What kind of obstacles did this create? And, how does this inform how you think about life today?

Marc Max Pollock

- ∞ Can you tell us a little bit about your concept of an Avatar as an extension of each of us?
- ∞ Just as important as learning to wield creative power is the knowledge you have gained about the inner workings of reality. In the book, you describe a logical framework that answers most of the “Big Questions” we ask ourselves: “What is the purpose of life? What are the origins of existence? What awaits us after death? What are the controlling forces of reality?” How did you come up with that framework?
- ∞ With the wisdom you gained about humanity’s link to the Universal Creative Force, you transformed your life and your belief systems and triumphed over a childhood of poverty, homelessness, and abuse. You have created a life of wealth, health, abundance, and happiness, and now you are here sharing your secrets with us. When did you realize that you could use your innate avatar powers to create the reality of your dreams?
- ∞ Your calling to write *Curious Avatar* arose during the pandemic. As the world struggled with the fear and disruption of those dark times, you realized that your non-religious perspectives on creation and your hard-earned knowledge about the link between energy and matter could help others and further the spiritual development of humanity. Who did you have in mind as the potential reader when writing the book?
- ∞ What is the role that humanity plays in perfecting the link between energy and matter?
- ∞ You say, ‘the concepts presented in the book, and that you have used to transform your own life, can hopefully assist the readers in their own journey of discovery and evolution but they may or may not apply to any other person on the planet. The point is, your life should focus on discovering reality from your unique perspective. Take any ideas of interest to you and use your own life as a testing ground. Develop your own unique view of reality—the one that works for you.’ Why is this an important theme for you?
- ∞ Where can people learn more about you and buy the book?
